

Chemical Formulae

Write the formulae for the following substances.

1. Lithium oxide
2. Lead (II) bromide
3. Potassium carbonate
4. Copper (II) sulphate
5. Silver Iodide
6. Iron (III) carbonate
7. Ammonium Dichromate
8. Silver chloride
9. Aluminium phosphate
10. Ammonium sulfide
11. Barium sulfate
12. Zinc fluoride
13. Sodium sulfite
14. Iron (III) sulfate
15. Tin (II) chloride
16. Nickle (II) iodide
17. Iron (III) hydroxide
18. Lead (II) nitrate
19. Barium nitrate
20. Ammonium phosphate
21. Iron (III) nitride
22. Calcium phosphate
23. Magnesium hydroxide
24. Aluminium oxide
25. Calcium hydrogen carbonate
26. Sodium nitrate
27. Magnesium oxide
28. Lead (II) hydroxide
29. Copper (I) nitrate
30. Chromium (III) oxide
31. Calcium nitrite
32. Potassium phosphate
33. Barium nitride
34. Zinc hydride
35. Ammonium sulfate
36. Copper (II) phosphate
37. Sodium carbonate
38. Magnesium dichromate
